AnimaliaTours-client

MVP

Mónica código manejoError pruebasBack pruebasFront develop

- ☑ 1. Hero (carrusel) ok pte pte pte pte
- ☑ 2. hook getrandomactivities ok na na na ok
- ☑ 3. cart (cartContext)
- ☑ 4. Login ok ok ok ok ok
- ☑ 5. UpdateActivity: updated due to new utils getElementbyId and new route
- ☑ 6. Revisar Añadir Mascota (addPet)
- ☑ 7. Revisar Eliminar Mascota (deletePet)
- ☑ 8. Página Carrito
- [pte prueba] 9. Cart endpoint newReservation (botón Confirmar reserva con ok carrito). id=local storage
- ☑ 9. Home Carrusel con 3 fotos fijas
- ☐ 10. User Context Lógica para decodificar o obtener el ID de usuario desde el token

Daniela

1. pagina activities
2. pagina About
3. Register(Con Ale)
4. Contact (Con Ale)
5. En Actividades un botón "Añadir al carrito" -> utilizar context link, añadir el boton modificar linkado updateactivies
6. colores para el cssgris claro: #f0f0f0 , beige suave: #f5e8e8

Aleida

1. Home
2. Footer(Con Daniela)
3. Header(Con Daniela)
4. Navbar(Con Daniela)

Carolina

1. En utils recoger actividad por ID
2. crear y hacer pagina ver actividad por id
3. UserProfile
4. NewActivity (añadir imagen) -> NO usar JSON, usar Form
5. Dentro del UserProfile -> Bloque de Reservas (usar endpoint getReservationsbyUserId)

- ☐ 6. NewActivity tiene que mostrar la lista de ciudades para elegir en un dropdown en vez de tener que meter el ID a mano.

Haritz

- ☑ 1. SearchBar
- ☑ 2. useRedirection
- ☑ 3. Router
- ☑ 4. PrivateRoute
- ☑ 5. Cities (con Carol)
- ☑ 6. deleteElement
- ☑ 7. Button component
- ☑ 8. NewCity
- ☑ 9. UpdateCity
- ☑ 10. Logout
- ☑ 11. ViewElement with Carrito feature
- ☑ 12. List of Activities in ViewCity
- ☐ 13. ViewElement also for pets and Reservations
- ☐ 14. ViewCity show "No hay actividades para esta ciudad todavía, lo sentimos."

BUGFIXES AND IMPROVEMENTS

- ☐ 1. Profile crashes the server app if no user logged.
- ☐ 2. Register should not be a separate option in the Header. It should be an internal link from Login.
- ☐ 3. "Ver Detalle" in ViewVity crashes. We need 2 separate files for clean workaround.
- [moni] 4. AddPet needs to create link between the new created pet and the user making that action.
- ☐ 5. deletePet needs to show a confirmation pop-up prior to deletion.
- ☐ 6. Show only Login when no token. Show only Profile when token.
- ☐ 7. Show Logout icon at right end only when user is logged.
- [moni] 8. Cart button "Confirmar reserva" only when user is logged in. If not, link to Login.
- ☐ 9. Cart icon near to Logout at right end instead of main NavBar?
- ☐ 10. User should be able to cancel a Reservation in his profile page. Confirmation pop-up needed.
- ☐ 11. User should be able to change his user information (name, email and password) in his profile page. Confirmation pop-up needed.

EXTRAS

- ☐ 1. Buttons for Activity or City creation / modifying / deletion should appear only if user is admin / provider.
- ☐ 2. Admin Dashboard is showed when token role is 'admin'. Here every user is shown and deletion allowed after pop-up confirmation.
- ☐ 3. Admin Dashboard could show every Reservation and change any of them.
